2023/40255

For the importation of Guinea Pigs into Curaçao, the animal must be accompanied by an Official International Health Certificate issued and endorsed by the official government veterinarian and signed by a certified veterinarian, with a validity of not older than 2 (two) weeks, attesting the following:

- The animals do not proceed from a zone or compartment that is under quarantine
- The animals are free of internal parasites. Therefore, they should be treated with a registered insecticide within 14 days prior to departure (mention the date, the time and the product used on the health certificate).
- The animals are free of *Chlamydia caviae* and therefore are tested and/or treated with a registered medicine
- The animals are transported according to IATA regulations.

The health certificate may be emailed for approval for entry at [info.uovz@gobiernu.cw](mailto:info.uovz@gobiernu.cw).

Cheryl van Ommen, DVM VO  
The Acting Head of the department of Veterinary Affairs
